

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + Make non-commercial use of the files We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + Maintain attribution The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### PREFACE

In the ninth issue of "Club Women of New York" the publishers feel that they are offering to the members of women's organizations and to others who may be interested a publication that is well established, having won a place for itself among the best-known directories of Greater New York.

The present edition has the honor of including in its register two hundred and seventy-five clubs and patriotic societies of Greater New York, with a directory of the members' names and addresses.

In facilitating the business of individual clubs and in bringing these clubs into closer communication with one another, "Club Women of New York" is aiding in the achievement of the unity in which there is strength, and is thus proving an effective means for the furtherance of that improvement in human affairs for which all women's clubs in their various ways are working.

Convinced that the representative advertising accepted by them enhances the value of the book because of its especial appeal to women, the publishers ask the club women who use this volume to regard the advertising no less than the reading pages as useful information and to patronize the advertisers whenever this is possible.

The time has come when the advertising columns of any publication can no longer be separated from the other reading matter as regards ethical responsibility. Publisher and reader as well as advertiser now have a duty in the matter. That of the publisher is to allow only reputable and reliable articles to be advertised in his publication; that of the reader is to do what she can to help make his advertising profitable to the advertiser.

The publishers desire to express their appreciation of the interest displayed and their sincere and hearty thanks for the aid given by officers and members of clubs and patriotic societies in furnishing material for the present edition of "Club Women of New York."

President New York City Federation of Women's Clubs

## NEW YORK CITY FEDERATION OF WOMEN'S CLUBS

The New York City Federation of Women's Clubs was organized in January, 1903, and incorporated in April, 1905.

The object of the Federation is to unite in closer fellowship the Women's Clubs of the City of New York, and to increase the influence of the individual club, by concerted action in the advancement of Educational Interests, Phil anthropic Work, and Civic Improvement.

The Federation represents 90,000 women through its membership of 176 clubs and 800 subscribing members.

The three conventions are held at Hotel Astor in October, February and May. At these conventions the clubs are represented by three elected delegates and three elected alternates. Subscribing members are given the privilege of the convention, and participation in all discussion.

There are 34 committees composed of members from the various affiliated clubs, that conduct the work of the organization. Special committees are formed by the vote of the convention, for any line of work they may wish to undertake.

The control and management of the Federation is vested in a board of 14 elected directors. One of these serves as president, one as first vice-president, one as second vice-president, one as third vice-president, one as recording secretary, one as corresponding secretary, one as treasurer, one as historian, and two as representatives from the Borough of Manhattan, one as representative from the Borough of Queens, one as representative from the Borough of Richmond, and one as representative from the Borough of the Bronx.

Any organization that is managed by women and whose officers are women is eligible to membership, providing it has been in existence at least one year, and it has a membership of not less than ten, with a constitution and by-laws.

Any club woman is eligible for the subscribing membership.

The annual meeting is held in February.

## Fashion and Corsets

Fads and fancies should have no place in corset construction. "Fashions" in the shape of women's bodies are grotesque, absurd and often injurious to health; neither do women look well if their bodies are thrown out of poise, the normal functions interfered with and their muscular activities restricted.

There is only one correct basis for corset construction—the perfect physiological type, and that is also the type that does not proclaim its presence by ugly lines that show beneath the dress. It is a daring thing at this particular time when High Art freakishness governs the illustrations supposed to represent the fashionable forms of women, to present reproductions of corsets by actual photographs on living models, unchanged in outline, proportion and poise. But serious-minded women, whose ideal of physical beauty is the outgrowth of good taste and scientific knowledge, will appreciate and understand the desirability of a truthful representation of this very important subject.

Every reader is invited to send for "Corsets: An Analysis," pronounced by all critics the most interesting and unique writing upon corsets ever published. It is a

forty-eight page book, containing over fifty illustrations from photographic and chart studies showing the physiological effects of right and wrong corseting, which prove beyond a doubt that scientific lines are also the most approved lines of dress.

Samples, measurement blanks and photographic illustrations of the new models sent without obligation to those who desire to know what comfort and beauty may be found in corsets that are physiologically correct

## SEALPACKERCHIEF

#### FOR MEN AND WOMEN

THERE'S nothing more personal than a handkerchief, yet before SEALPACKERCHIEF was known, handkerchiefs were sold loose and everybody could handle them. SEALPACKERCHIEF has modernized and standardized the buying of handkerchiefs. You select from the samples which hang on the counter case (see illustration above), but you buy a sealed package, guaranteed to contain the same quality as the hanging sample.

#### SEALPACKERCHIEF

Incures absolute clean finess. The quality of the handkerchiefs at the various prices stands the most rigid comparison. They come to you white, soft-laundered and ready for use and they re-launder equal to now.

Serves Your Meals Better Than a Maid

Servette is a revolving domestic serve-self arrangement whereby you help yourself without disturbing and interrupting others.

Servette stands in the center of your table, and climin-

ates waste motion.

It enables the diners to eat without double crossing, thwarring and blocking each other's movements. It promotes peace in the household, and puts a premium on sociability

sociability

It has no nights off, no "off days," receives no "gentlemen frienda," and never basely deserts you in a pinch.

Servette solves the waitress problem effectually, decisively and for all time. It is a most useful and necessary table-appointment, one that will grow in grace and favor as the days pass.

Each Servette comes in two parts, top of French plate glass (Sterling Silver or Solid Gold filigree, if desired), and base of nickel or silver. For Wedding, Anniversary, Barthday or other joyous occasion, Servette makes a specially beautiful, ornamental and serviceable gift, one that will not be duplicated. Write for interesting booklet about Servette. Prices on application.

### Make Your Home Inviting

For brightness, durabitity and absolute cleanliness, there is no floor covering, of modest cost, that will compare with CREX carpets, rugs and runners.

There are CREX coverings for every floor of the home. They are used in expensively furnished houses as well as in the modest. They are the joy of the housekeeper because they are so easy to keep clean and bright. Simply shake and dust with a damp broom. The largest rugs or carpets can be cleaned in ten minutes.

Bed chambers with CREX rugs or carpet are a delight. The delicate fragrance of the natural untreated grass soothes the nerves and promotes peaceful rest. You do not have to tack down CREX coverings—they lie flat—never curl.

All grass floor coverings are not CREX. There are other brands, similar in appearance, but every dependable dealer will tell you that CREX is the standard and is guaranteed by its manufacturers.

An inspection of the CREX line will repay any housekeeper for the time taken. Suppose you call on your home dealer today.

# ALUMNAE ASSOCIATION NEW YORK MEDICAL COLLEGE AND HOSPITAL FOR WOMEN.

#### Manhattan.

As a body of Alumnæ the members have the welfare of the New York Medical College and Hospital for Women at heart, and seek to uphold the hands of the Alma Mater by moral, financial and practical support. The interior work of the Association can hardly interest the public at large, for while philanthropy is the underlying theme, at the monthly meetings, medical opinions are interchanged with advantage to both young and old.

An annual meeting is held the day after Commencement, when the year's business is recounted, the new graduates welcomed as members, and the election of officers held. This meeting is usually well attended by members from a distance, and on the evening of the same day the annual dinner takes place, at which the newly graduated are guests of honor.

### A Book of the Utmost Importance At the Fountain Head

Five Stories on the Origin of Life, for Parents and Teachers

By WILLIAM F. BOOS, M. D.

THE author is a leading Boston physician who has made a special study of sex hygiene. In response to the genuine demand for adequate yet delicate methods of explaining to children the facts of life he has prepared these five stories, which have all been frequently used for the purpose for which they are offered, and have not only answered without exception the questions of the inquiring child satisfactorily and completely, but have also established in the mind of the child that confidence which comes from understanding—an indispensable quality in the basis of the child's mental and moral development.

In a Foreword Doctor Boos explains the reason for the stories, gives suggestions regarding the method of using them, and indicates the line of instruction which could follow their use.

Contents: Foreword, The Little Brother, Martha's Apple, The Mother Doe, The Baby Egg, How a little Baby Comes into the World.

President-Emeritus Charles W. Eliot of Harvard University, Honorary President of the American Federation for Sex Hygiene, says: "'At the Fountain Head' will be useful to parents and teachers who have decided to give information on sex hygiene to the children in their charge. The interest in its subject is keen and widespread among thoughtful people."
